

What's New with AB Women's Ministries

Women's Leadership Academy

The Women's Leadership Academy focuses on the basics of Christian leadership with an emphasis on Biblical insights for leadership, personal spiritual growth, servant leadership as modeled by Jesus, and God's vision for the future.

The Academy modules also covers the "How-to's" of organizing for effective ministry, communication within the ministry team and to the broader audience, shepherding and mentoring, selecting ministry activities and planning, resourcing for effective ministry and evaluation.

Women from age 18 and older are encouraged to participate in the 10-session Academy. Several modules will be taught each year, and participants can begin at any time during the two-year cycle.

The first session of the Academy will be Saturday, June 4, 2016 during the Women and Girls' Conference at Parchment Valley. The leadership training is FREE of charge. What a great opportunity to strengthen your women's group and your church.

Sandra Lutz will teach the first session on the "Characteristics of a Christian Leader." Here are her thoughts on leadership:

A follower of Jesus Christ should be a leader of people. While some are born leaders and some have the spiritual gift of leadership, you need not have the natural talent or giftedness to influence in a Christ-like way. Leadership is influence - nothing more, nothing less. Come and learn the characteristics of a Godly leader that will help you think and act like a leader, becoming the person of influence God desires you to be.
