Missionary Biography:

Drs. Rick and Anita Gutierrez serve in Durbin, South Africa, together with International Ministries' partner, the Baptist Mission of South Africa. They train and equip local churches, pastors and missionaries to combat life-style related diseases like HIV/AIDS, heart and artery disease, diabetes and malaria. Portable rapid screening tests for these conditions are offered by trained health builders. The doctors continue to develop a health education DVD series that can be studied individually or in small groups. A holistic approach from the Christian perspective is offered in order to help people achieve their health and life goals. The vision is to train two to four health builders in each participating church. They would like to see this model of health building become a part of local church missions throughout Africa and other resource-limited settings.
